From The Chairman's Pen

### “LET'S LEARN TO FOCUS ON SOLUTIONS, THAN ON PROBLEMS”

The third issue of “The Genius Times” has reached you in the beginning of Vikram Samvat- 2068. We generally take resolutions in the beginning of New Year. In this New Year I would like to suggest you to resolve for focusing on the solution than on the problem.

Problems are always going to exist and will always appear in our lives whether we like it or not. It's not about what the problem is, but how we handle it. Learning how to handle our problems will help us become better at focusing on the things that matter.

Generally we spend our time in discussing the problems/issues which may be related to an individual, social, institutional or national. Whether the problems like national discipline, terrorism, corruption, environment, etc. at national level or you take problems like girl child, cleaning, traffic sense, suicidal tendency among students or standard of education at social level or problems related to students-teachers relation, employee-employer's relation, students discipline, etc. at institutional level. We must always try to find the solutions than focusing on the problems. I strongly believe where there is a problem, there definitely is a solution.

Remember, the great Sardar Vallabhbhai Patel who focused on the different solutions for amalgamation of Princely States which made the reunion of India possible. And Mr. Anna Hazare, who is trying to find the solution against corruption. On the eve of new Hindu calendar year let us resolve to be the path finder's than the fault finder's.

“Change is happening all the time; our role is to identify useful change and amplify it.” Drawing on the systems heritage, its development in complexity theory, and on social constructionist thinking, Solutions Focus can be thought of as the new wave of change technology.

As Steve de Shazer said : ***“Problem talk creates problems, solution talk creates solutions!”***

## Editorial Column

Hello everyone,

Coming back after a month long hiatus on probably the most celebrated festival in Hinduism, Diwali.

**“Diwali”, the festival of lights, illuminates the darkness of the New Year's moon, and strengthens our close friendships and knowledge, with a self-realization!** It symbolizes that age-old culture of India which teaches to vanquish ignorance that subdues humanity and to drive away darkness that engulfs the light of knowledge. Even to-day in this modern world Diwali projects the rich and glorious past of India. Of all the festivals celebrated in India, Diwali is by far the most glamorous and important. Enthusiastically enjoyed by people of every religion, its magical and radiant touch creates an atmosphere of joy and festivity.

Diwali also celebrates the gracious nature of the three goddesses, **Lakshmi, Kali and Saraswati**. Dhanteras is dedicated to Lakshmi, whose blessings are essential for a prosperous, fruitful and peaceful life. Kali-Chudash is dedicated to Maha Kali whose strength we seek to maintain the wealth we have. Diwali itself is dedicated to goddess Saraswati. Knowledge is the ultimate wealth, for it cannot be stolen from you; it is also the ultimate strength, for it often defeats brute force.

When I was young, Diwali for me was a day when I had a holiday from school (very important!), could wear new clothes and burst sparkling fire-crackers. Slowly, the concept has changed. Now Diwali has a deeper and more profound impact on me, and that is exactly what I would like to share. So let us look at the legends behind Diwali:

The first one is from Ramayan, which describes Diwali as the day when Lord Ram returned victoriously to his kingdom of Ayodhya after defeating the demon king Ravan of Lanka. Lord Ram was given an arousing welcome and the entire city dazzled with Diyas. This was later celebrated as an annual festival called Diwali.

The second reference is related to Lord Krishna. Once there was an evil demon called Narakasura, who was a tyrant and was forever oppressing the common people. All of them prayed to Lord Krishna to relieve them from his clutches.

**Article Corner** *"Internet: Boon Or Bust"*

As we all know internet has become very common nowadays. All students waste their time on net even when they are studying in 10<sup>th</sup> or 12<sup>th</sup> grade. They find fun on surfing through YOU-TUBE, Gmail, yahoo mail, FACEBOOK etc. After spending long hours on net they have no time to study. Our generations' takes pride to be in 21st century using advance technologies but are not wise to use it in productive way. Online games and non-productive surfing is not only wasting our time but also endangering academic performance. Apart of it many are losing the vision of eyes due to sitting before Computer and laptops for more number of hours.

I hereby, request to all my friends and mates to reduce this habit as it will lead us nowhere. At least give it a try, as it is well said, "A good begin is half done".

**Lakhani Ram - 10<sup>th</sup> Gujarat board**

*"The Day I Will Never Forget"*

By looking at my face, it seemed that tree without leaves, a mother without baby, a child without parents, and a heart without feelings. There was nothing left except tears behind.  
"The Day When I Was Alone"

**Komal Tanna - IGCSE-I Cambridge Board**

*" My View "*

What is Teacher?

A guide not a guard.

What is living?

A journey, not a destination.

What is discovery?

Questioning the answers,  
Not answering the questions.

What is process?

Discovering ideas,  
Not covering contents.

What is the goal?

Open minds,  
Not closed issues.

What is the test?

Being & becoming,  
Not remembering & reviewing.

What is the School?

Whatever we choose to make it.

**Chintan Rachh -7th Gujarat Board**

*" Our Mother Earth "*

The earth is very big & unique,  
She has water and air in it.

She has ever ever ever green trees,  
This gives oxygen very free

Our earth is land of our mother,  
She takes proper care of other.

The vehicles on the earth pollute the air,  
This harms the environment as well.

She has very very very big ways,  
This allows children to play.

Trees have vegetables so much,  
We get it in our lunch.

She provides us nutritious food,  
This is healthy & very very good.

We love our mother earth,  
She gives everyone birth. **Yashvi Shah & Astha Patel- 6<sup>th</sup> CBSE Board**

*"If You Are Having No Work, You Will Have Infinite Money"*

Strange but scientifically it is true.

Work= Force x Displacement (According to Physics) & Force = Mass x Acceleration

& as Acceleration is velocity divided by time, we can say that acceleration is inversely proportional to time  $\{a^{\infty 1/2}\}$  & that means work is also inversely proportional to time  $\{w^{\infty 1/3}\}$

Therefore, work  $\infty 1/\text{money}$

If work less, time is more. And we know that TIME IS MONEY, therefore we place money in place of time then Work  $\infty 1/\text{money}$ .

So, if work decreases, money increases.

Zero work, infinite money.

**Jigar Mehta - Science Teacher, CBSE Board**

*"A Driving Thought"*

"Are you kids studying?", asked an unknown auto driver. The two boys replied positively and me being a mute fellow passenger. The conversation started with a blow on my education, learning and alertness, when the driver said," even if you study and get a gold medal feeling heavy and high, you can't and may be won't do anything to change this place. As being a youth can't you even start the government bus again, which has been a tiresome demand among those who depend on common transport? The boys replied saying that he would be at loss if the buses are on road. The reply shocked me at large "people and population never gets less, we take passengers as per need. Then what about those people who wish to save a bit extra. Those who rely on time and for those where 5 chillers matters the most. So are you going to raise voice for right?"

OR

Stand on a pavement and have a DUS rupiah fight.

**Ms. N. Brinda - Academic Head – Pre-primary Section, Genius English Medium School***"Faith..."*

An eye witness account from New York City, on a cold day in December, some years ago: A little boy, about 10-years-old, was standing before a shoe store on the roadway, barefooted, peering through the window, and shivering With cold.

A lady approached the young boy and said, ' why are you staring in that window!'

'I was asking God to give me a pair of Shoes,' was the boy's reply.

The lady took him by the hand, went into the store, and asked the clerk to get half a dozen pairs of socks for the boy. She then asked if he could give her a basin of water and a towel. He quickly brought them to her. She took the little fellow to the back part of the store and, removing her gloves, knelt down, washed his little feet, and dried them with the towel. By this time, the clerk had returned with the socks. Placing a pair upon the boy's feet, she purchased him a pair of shoes. She tied up the remaining pairs of socks and gave them to him. She patted him and said, 'No doubt, you will be more comfortable now.'

As she turned to go, the astonished kid caught her by the hand and looking up into her face, with tears in his eyes, asked her.

'Are you God's wife?'

**Ms. Dhara Raval - Administrative Head- Genius English Medium School***"Just a Teacher" ?*

Every parent wants their ward having a successful and famous profile Nobody wants to become a teacher BY CHOICE" The CEO, decided to explain the problem with education. He argued, "What's a kid going to learn from someone who decided his best option in life was to become a teacher?"To stress his point he said to another guest; "You're a teacher, Bonnie. Be honest. What do you make?"

Teacher Bonnie, replied, "You want to know what I make."Well, I make kids work harder than they ever thought they could. I make kids sit through 40 minutes of class time when their parents can't make them sit for 5 min without an I Pod. I make kids wonder. I make them question. I make them apologize and mean it. I make them have respect and take responsibility for their actions. I teach them how to write and then I make them write. I make them show all their work in math. They use their God given brain, not the man-made calculator. I make my classroom a place where all my students feel safe. Then, when people try to judge me by what I make, with me knowing money isn't everything, I can hold my head up high and pay no attention because they are ignorant.

MAKING A DIFFERENCE IN ALL YOUR LIVES, EDUCATING KIDS AND PREPARING THEM TO BECOME CEO's, AND DOCTORS AND ENGINEERS. What do you make Mr. CEO?

His jaw dropped; he went silent.

**Ms. Pragna Dave - Academic Head – Higher Secondary Section, Genius English Medium School**

*Articles on topic in the box given bellow with the criteria of 150 to 200 words are invited on or before 21st November*

For Students

For Parents

For Teachers

*Importance of sports in student's life**Impact of movies in student's life**Education system: Traditional/Western*

Co-curricular activities of October month

*Card Making Competition*

Students of GIS, Sr.Kg to IVth Grade of CBSE & Cambridge Board

participated in Card Making Competition

*Rangoli Competition*

Students of Grade Vth Cbse & Grade Vth to XIIth of Cambridge Board

participated in Rangoli Competition

*Diya Decoration Competition*

Students of Grade Vth of CBSE & Cambridge Board

participated in Diya Decoration Competition

*Diwali Celebration*

Students of Sr.Kg to Vth grade of CBSE Board

celebrated Diwali by making Lamps.

Opinion Poll

Do you think Formula One racing is a sport for the rich & famous and India isn't the right place for such an expensive sport?

*For Parents*

type YES or type NO or CAN'T JUDGE and send us from your mobile no. to 9638594777 latest by 19<sup>th</sup> of November.

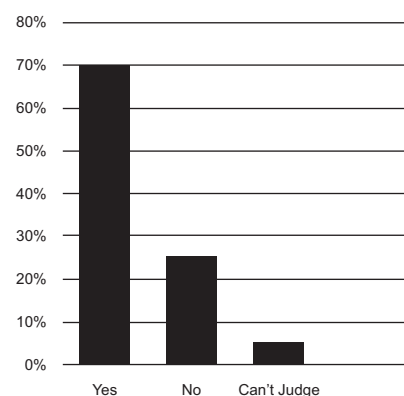

*For Students*

Submit your answers in the poll box provided in the school library.

Upcoming Events

- Inauguration of Mahesh Bhupathi Lawn Tennis Academy
- Confluence Program:  
Students : The Cambridge School – Guwahati  
International School Of Scholars - Nagpur
- Annual Sports Day

Result of previous opinion poll box  
Do you believe that board exams in std. 10th should be there or not?

**Gardi Vidyapith Highlights**

“It seems lady luck is smiling on engineering students these days. While the prospect of campus placement has already brightened with the willingness expressed by several organizations to visit the campus and select the suitable candidates, few students are also selected in for some prestigious organizations. Meanwhile, a number of private sectors would be visiting **Gardi Vidyapith** campus within a month or two for recruiting students.”

**The Book Corner**

*“Who Moved My Cheese”  
(An amazing way to deal with change in your work & in your life) - By Dr. Spencer Johnson*

The Story of “Who Moved My Cheese?” was created by Spencer Johnson to help him deal with a difficult change in his life. It showed him how to take his changing situation seriously but not take himself so seriously. It's written for all ages and its unique insights can last for a lifetime.

Who moved my cheese? Is a simple that reveals profound truths? It is an amusing and enlightening story of four characters who live in a maze and look for cheese to nourish them and make them happy.

Cheese is a metaphor for what you want to have in life whether it is good job, a loving relationship, money or a possession, health or spiritual peace of mind.

Dr Spencer Johnson will show you how to:

- Anticipate change
- Adopt to change quickly
- Enjoy change
- Be ready to change quickly, again & again

This book is simple, understandable road map for us to use as we deal with our own individual circumstances around changes. This wonderful book is an asset to any person or group that applies its lessons.

Discover the secret for yourself & learn how to deal with change, so that you suffer less stress & enjoy more success in your work and in life... Believe it or not, this little story has been created with improving career, marriages & lives! work and inlife Believe it or not, this little story has been created with improving career, marriages & lives!

- 1** World Vegan Day **5** World Interact Day **6** International Day for Preventing the Exploitation of the Environment in War and Armed Conflict **8** World Radiographer Day **9** World Freedom Day **14** Children’s Day, World Diabetes Day **16** International Day for Tolerance **17** International Students Day **19** World Toilet Day, International Men's Day **20** Universal Children's Day **20** Africa Industrialization Day **21** World Fisheries Day, World Hello Day, World Television Day **25** International Day for the Elimination of Violence Against Women, International Meatless **29** International Day of Solidarity with Palestinian People **Third Sunday of November** World Day of Remembrance for Road Traffic Victims

*Ask Yourself*

When I help someone do I think “What's in it for me”?

*Weird - But True*

A rat can last longer without water than a camel.

*Quotation*

‘The foundation of every state is the education of its youth.’

## **"Wisdom of Living"**

We had a small discussion with revered Swami Paramatmananda Saraswatiji. Swami Shri Parmatmanandaji has been reaching out to the society for the last 30 years. He is a disciple of H.H.Swami Dayanandaji. Swami Paramatmanandaji is Secretary General of Hindu Dharma Acharya Sabha. Shri Swamiji has designed various teaching modules for different segments of the society. He is the founder Acharya of ARSHA VIDYAMANDIR, RAJKOT.

Swamiji enlightened us by imparting wonderful knowledge on today's education system & human values. He says that every human being is like a brick of the building. Each brick should be strong, as strong bricks make the strong building. With the help of this wonderful metaphor, Swamiji wants us to understand that we should design our life not merely for survival. The urge of human heart is to GROW. Swamiji also revealed to the well-known story of "The Crow & Pebbles". A crow can only get the water level up by dropping pebbles, drinking water & flying away. Human beings are gifted with brains to work out wonders.

According to Swamiji, education means constant learning, learning that leads to development & growth. He says education system should have double fold infrastructure, 1) Wisdom of Earning & 2) Wisdom of Living. Combination of these two results into holistic life.

**Edu-Leader Bytes**

Dolly Tejura, Nikhil Padia

Swamiji appreciates today's education system that gives best infrastructure facilities which focuses not only on theoretical education but also the art of implementation of it in life. He recommended schools, colleges & other educational institutes to design such syllabus that develops the skills of learners in various fields but most importantly emphasized on self managed personnel. In context of this, Swamiji cited example of "RAVAN". Ravan managed the entire world but failed to manage himself. It is hard to manage the world but it is more difficult to manage & control oneself. He strongly believes that India can challenge the world in every aspect, if it holds onto the roots of wisdom of living. He encourages the youth to be the trend setter rather than to be the follower.

Swamiji also threw light on the employment acquiring skills by emphasizing on expertise that is the combination of wonderful academic records, clarity of principles & the education that develops the individual empowered citizen which builds the better nation.

### **Cont. From The Chairman's Pen**

So, learn to focus on solutions not on problems "If you look at what you do not have in life, you don't have anything" "If you look at what you have in life, you have everything"

So, my dear friends, I wish that may millions of lamps illuminate your life with lots of love, joy, prosperity, health, wealth and happiness. Happy Deepawali and Happy New Year with the message to all the staff members, parents, readers and loveliest students. Remember

SMALL MIND DISCUSS PEOPLE - AVERAGE MIND DISCUSS THINGS - GREAT MIND DISCUSS IDEAS  
-AND - GREATEST MIND ACT IN SILENCE. - Mr. D.V. Mehta

### **Cont. Editorial Column**

Thus, Lord Krishna came and after an intense battle, he killed Narakasura using his Sudarshan Chakra. The people rejoiced, lit the city with lamps, and this incident came to be annually celebrated as Diwali.

If you look at the common thread between these 2 legends, it portrays the victory of good over evil, of light eclipsing the darkness, and of righteousness holding forth against all odds. Thus, the Diwali festival is a very symbolic one that extols us to kill our inner demons (negativities) and purify our soul by lighting it up with goodness.

Hey! Did you make any New Year's resolutions? A lot of people promise to do good deeds, or to improve their quality of life. A change of attitude or outlook on life which often have a huge impact on the lives of everyone around you.

Remember this, folks; it does not have to be a new year's resolution which can be lent, a special occasion or just a defining moment in your life when you want to make a change for the better. If you make your goals then STICK TO THEM.

"So, have a prosperous Diwali. Hope this festival of lights, brings you every joy and happiness. May the lamps of joy, illuminate your life and fill your days with the bright sparkles of peace, mirth and goodwill, because you are someone who deserves life's best and so much more. Have a joyous Diwali and a very Happy New Year to you all".

HAPPY READING !

- Ms. Dimple Mehta

**Inspirational Corner**

*"Life isn't worth living if you're waiting to live it."*

We convince ourselves that life will be better after we get married, have a baby, then another. Then we are frustrated that the kids aren't old enough and we'll be more content when they are. After that we're frustrated that we have teenagers to deal with, we will certainly be happy when they are out of that stage.

We tell ourselves that our life will be complete when our spouse gets his or her act together, when we get a nicer car, are able to go on a nice vacation, when we retire. The truth is there's no better time to be happy than right now. If not now, when?

Your life will always be filled with challenges. It's best to admit this to yourself and decide to be happy anyway. One of my favorite quotes comes from Alfred D Souza. He said, "For a long time it had seemed to me that life was about to begin -real life. But there was always some obstacle in the way, something to be gotten through first, some unfinished business, time still to be served, a debt to be paid. Then life would begin. At last it dawned on me that these obstacles were my life."

This perspective has helped me to see that there is no way to happiness. Happiness is the way, so, treasure every moment that you have. And treasure it more because you shared it with someone special, special enough to spend your time... and remember that time waits for no one.

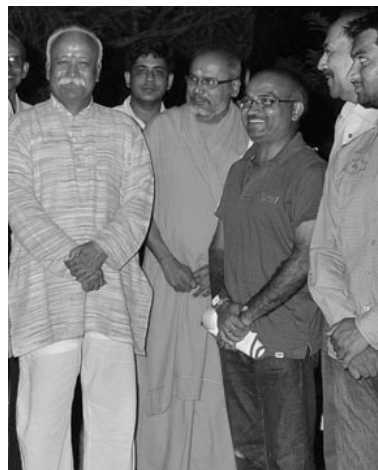

So stop waiting until you finish until you die, until you are born again to decide that there is no better time than right now to be happy... Happiness is a journey, not a destination. So, Work like you don't need money. Love like you've never been hurt and Dance Like no one's watching.

Nobody is perfect. Nobody is anything. A person may have a strong point such as surviving abuse, but may need help managing time. Another person may need help quitting smoking, but knows how to run a successful business. The possibilities are endless! Each person is a mosaic of strengths and weaknesses. If you know what yours are, you have come to the right place. Let others benefit from your positives while you gain from theirs. Give and take inspiration!

*"Never Ever Alone "*

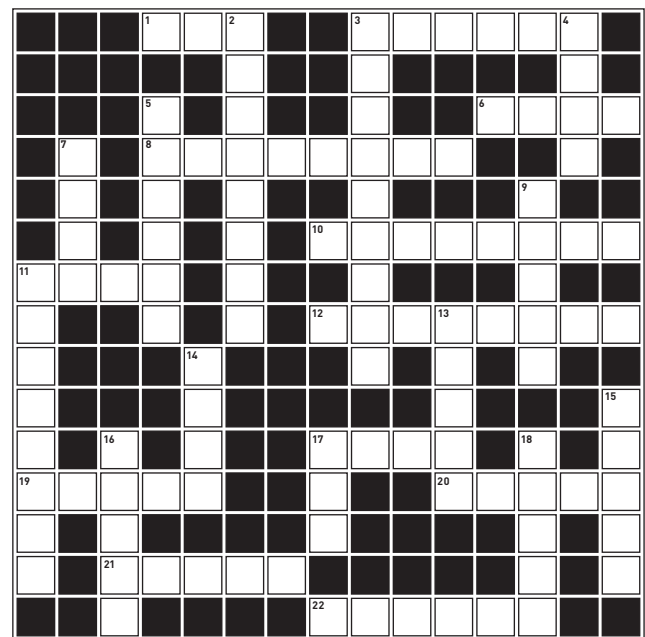

Never say "NEVER",  
Just keep trying forever.  
Doesn't matter if you fall,  
Just stand strong, bold & tall.  
Don't let anything push you down,  
Don't let yourself drown.  
Just face whatever comes your way,  
Don't run or fly away.  
No matter how difficult,  
Anything may seem.  
It may just be the BEGINNING,  
Of a WONERFULL DREAM.
